

# Institute for the Study of Child Development

Where Science and Baby Minds Meet

The Institute for the Study of Child Development at the Rutgers Robert Wood Johnson Medical School invites you and your infant (4 – 24 months of age) to participate in a free research study on how infants learn about their world through vision and hearing and interaction, and how this might identify at-risk infants.

You together with your baby will watch a few short videos of moving objects and talking faces, and also spend some time interacting with each other face-to-face.

**We make appointments to fit your schedule**  
**Appointments last approximately 45 minutes**

Please contact Stacey at (732) 235-7700  
Or [napolis1@rwjms.rutgers.edu](mailto:napolis1@rwjms.rutgers.edu)

**Parking Provided!**

**Fun for you and your baby!**

**Siblings Welcome!**

This clinical research is funded in part by the New Jersey Governor's Council for Medical Research and Treatment of Autism and the New Jersey Department of Health
